5.0 ★★★★★

"GREAT GREAT GREAT!!!!!!!!!!!!!!!!!!!! You are great !!!!!! It's a pleasure to work with you! You did something that I thought was impossible and you did it very well and quickly. You are officially my new trusted developer. You are honest, kind and sincere. I've never worked as well as with you! Thank you my friend, you made me very happy <3"

"This freelancer proved in advance, without a milestone, that he could deliver the results I was looking for. Only then did I post a milestone. He provided me with the files required to install 4 packages on a new Ubuntu system from a usb drive without using internet. He stayed with me on chat as I tried it. He also found a good down-load site for an old program, Keryx, earned how to use it and wrote an illustrated mini-instruction manual for me. His English is good. I was extremely impressed!"

Android app, buttons with numbers on them for special needs children

Mohamed was easy to work with. He response quickly and is eager make the fixes I wanted. He communicants well and helped me to clarify what I wanted done. This was a fun little app to design that will be very useful. I hope to be working with Mohamed J. on my next project.

Root Moto Z2 Force, strip out updaters, and install Web browser

Wow! Mohamed did a great job. This project became a sh*t storm of unforeseen circumstances (like donated unlockable devices we could not root) and Mohamed hung in there while we explored all the options to make use of these 90 phones.

In the end we wound up with a solution that was not ideal, but the best we could do under the circumstances. Mohamed expertly and patiently guided us through the process and came up with a graceful solution.

Would I'd work with him again? In a heartbeat.

"Having used this platform many times before, Mohamed delivered among the highest levels of service I have experienced on Freelancer. The customer support from beginning to end of the process was top-notch. When I asked him questions, his answers were clear, detailed and informative. Technically sound at all times, responses to queries resolved fast, end product excellent! I highly recommend that others utilize his services."
